

Week 1 Journal

PROJECT 3

Wednesday, September 3, 2025

- Today we had first class of Level 2. Took down notes for this weeks to do list.
- Watched a YouTube video on Linux for a brief idea.
- (<https://youtu.be/BMGixkvJ-6w?si=AFyqsU3NpuXMzZHg>)
- Read raspberry pi 0 W v1.1 documentaries.
- Tried setting up the module but a cable was missing.
- Installed WSL2 and Ubuntu through
[<https://www.youtube.com/watch?v=vxTW22y8zV8>]

Thursday, September 4, 2025

- I had question, What is raspberry pi? Researched more through its official website and <https://youtu.be/FR2b53MI3v0?si=u9lOgPPiEQJa5J9v> .
- Set up new repository in GitHub <https://github.com/Bilal2866/ENGG-PROJECT-3.git>
- Followed the steps to setup Linux and ubuntu on windows.
<https://youtu.be/vxTW22y8zV8?si=vTw2Dq5l0EIHPtXl>
- Played around with it and did fun things like ipconfig.

Friday, September 5, 2025

- Played with kali Linux and Ubuntu.
- Learned how to go back and forth from one another.
- Setup full Linux desktop.
- Learned simple commands for opening, closing and deleting files.

Monday, September 8, 2025

- Introduced myself to Nano – terminal based text editor.
<https://youtu.be/g2PU--TctAM?si=04nr-rYWwZZqWhrs>
- Tried setting up the pi with my home/school Wi-Fi but it did not work.
- Went through YouTube video for help

Tuesday, September 9, 2025

- Connected the pi to my windows but it would not work.
- Many errors like imager did not show the sd card.

- Tried troubleshooting and worked till midnight.
- Asked my group members to come in early before the class as I think my laptop is the reason for errors.
-
